COUNTY CROPS ARE AIDED BY SHOWERS

Crop conditions in Bourbon county have shown marked improvement the past week as a result of showers that have fallen recently. The week has been decidedly favorable to the growth of crops, the temperature averaging nearly normal, with sufficient sunshine to make vegetation grow.

Plowing for fall grains has made good progress, with the soils working unusually well. Late corn is shown to have developed rapidly having generaly passed the silking stage, Early corn has matured and is beginning to dry up. There has been a marked improvement in alfalfa and second growth clover, and some young clover that has survived the drouth has begun to grow. In some fields where the soil was thin, the clover is thin and spotted.

Late potatoes have made good progress. The tobacco is also doing well, but is being topped unusually late, and will require a late fall to ripen properly. Pastures continue excellent and late gardens are in good condition, with vegetables plenty. A fair crop of cowpea hay has been harvested, and the outlook is favorable for plenty of feed for man and beast the coming fall and winter.

## on Titan and International Tractors

The Harvester Company has made another big price cut on Titan and International Tractors. This reduction wipes out all former advances and puts these tractors at the lowest prices at which they have ever been sold. We are offering:

#### International 8-16, \$900

This price is about one-fourth less than that of March 1, 1921. The new price includes all necessary equipment-platform, fenders, governor. belt pulley-which cost extra on some tractors.

#### Titan 10-20, \$900

This is the lowest price ever quoted on the Titan, considering equipment included (formerly sold extra). At this price the Titan 3-plow tractor is the best value in the farm power field.

#### International 15-30, \$1,750

This also is lower than any former price. You cannot find a better 4-plow tractor for the money.

All prices are f. o. b. Chicago. The Harvester Company advises us these prices are made regardless of manufacturing costs and that they do not guarantee to maintain them. These prices certainly justify the immediate purchase of a tractor.

## The Folly of Cheating Nature

Many people get the idea that they can keep their nerves on edge and their digestion upset year after year, and "get away with it." They sleep only half as much as they should - and never get properly and thoroughly rested.

If you tire out easily, if you are getting pale and anemic, if your food doesn't digest as it should, would it not be well to stop and consider whether coffee or tea is having its effect on you?

The caffeine and thein found in coffee and tea are drugs, as any doctor can tell you. Is it any wonderthatthesteadyuse of these drugs sometimes causes serious damage?

#### KENTUCKY WOMEN FURNISH AN OBJECT LESSON

The New York Morning Herald had the following observation on the editorial page:

"The attention of our only woman member of Congress, who strangely enough is an anti-femist, is invited to a recent episode in the Cumberland Mountains. It might have been staged by a motion picture director, but it was not. It was 'regular.' Moonshining is a fixed habit with many mountaineers, and male officials have failed to prevent illicit distillation and the criminal distribution of whisky. The women took a hand. They announced that the law must be respected, and the answer was a posted warning that 'every woman will hear the crack of a rifle.' This might have influenced men enforcement agents, but it had no effect whatever on the 'female of the species.' They went out after the law breakers—and they got a few.
